Dear Sir

In the "Record" I have the honor to submit report of attendance & work accomplished in the Gallery for the months of Sept & Oct. The month of Sept showing as a very weak one regarded as a school month. Knowing that it was the desire of the Art Committee to remove the Department of drawing from the Gallery, I have the past summer, paid particular attention to the arrangements used & required in the Schools of Europe. In the published abstract of the English law governing the

erection of buildings for Art Schools  
about 2000 sq ft are required  
for all purposes for fifty pupils  
viz A class Elementary

" " Antique drawing

" " Modelling, The

particulars of which I can better  
elucidate by sending you the  
book, which I think will be  
useful in case the Corcoran  
Association intends erecting a  
building for these purposes. I  
have searched Washington  
very thoroughly for rooms  
adapted for present use in  
case the Board saw fit to  
remove the drawing class.

I can find nothing better  
than the Gallery except three  
rooms in the Columbia  
University Bldg Nos 25, 26 &  
27 which although not comprising

all we would require, would still  
accommodate all the pupils we  
now have & possibly more  
besides giving room for the  
class in painting from nature  
to which allusion was made  
in a former report. The  
light in all the rooms is  
much more simple, uniform  
& in every way better adapted  
for study than that of the  
Gallery.

Yours very Respectfully

E. F. Andrews.

Dear Sir:

Curator Corcoran Gallery

*Recd & Ackd  
Nov. 5 + 6<sup>th</sup>*

I shall probably need from fifteen to twenty  
of the 75¢ sized photographs of pictures in your Gallery and  
write to enquire what the lowest price would be - also, if you  
could supply them unmounted, and if so, the price in that style.  
I want them to use in preparing illustrations for the "Handbook."

The other important art museums of  
the country have generally (and generously) supplied us with  
photographs, cuts and other material for illustration, free, and I  
think you would find, upon consideration, that the Corcoran Art  
Gallery can well afford to do the same. Certainly anything that  
will make its treasures of art, <sup>still</sup> more widely known, as this book will,  
must be for its benefit.

Trusting that you will  
see this suggestion in its proper light, I am, Dear Sir

Yours respectfully  
Walter Rowlands.

\* For instance, the Pennsylvania Academy sent us, gratis, over twenty photos.  
of its buildings and contents, with electros. and offers of student drawings, &c. &c.
